Political Camp Meeting in Pleasants

For an entire week, ending October 2d, the hills and valleys of this county have been vocal with political speeches and band music, under the auspices of D. H. Leonard, of Parkersburg, a candidate, we understand, for some office. Mr. Leonard, we have the substantial of the substantial to the substantial of the substantial to tryit. For lame back, side or best uses the substantial to tryit. For lame back, side or the substantial to tryit. For lame back, understand, for some office. Mr. Leonard and his associate speakers and the members of the Parkersburg brass band were in the services of their employers, and well have they earned their hire. We have heard of no political conversions resulting from their labors, and are lead to doubt whether their true object was to make thorough and complete converts to the Democratic party, but incline to the opinion that a partial conversion was all that was contemplated. We are not alone in this opinion, either, and our reason for it is that their entire route through this county from St. Mary's to Hebron, the most distant part, thence to every cross-road within our territory is marked by little posters tacked on every conspictions tree, fence-post, hog pen, and prominent object, which reads as follows: of the Parkersburg brass band were in the

Come, let us reason together. Does not every reading, intelligent man know that if the plank in the St. Louis Democratic platform were enacted into a law that the platform were enacted into a law that the rolling-mills, glassworks and woolen and cotton mills of New Albany would be compelled to close, entailing a loss of millions on the owners, and ruin on the city? Two-thirds or three-fourths of the citizens would have to abandon the city, and seek employment on farms or elsewhere.

and seek employment on farms or elsewhere.

Are the hundreds of people in the city who have their all invested in their homes and the thousands of men employed in these manufacturing establishments and others depending on the trade of the workmen of these manufactories—we repeat, are all these people prepared to take the chances of any such disaster? We repeat, the city would be depopulated and real estate would not be worth the taxes. Every voter in the city of New Albany ought to be in favor of a protective tariff. The very life of the city depends upon it.

It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Full directions for using will accompany each bottle. None genuine unless the fac-simile of Curtis & Perkins is on the outside wrapper. Sold by all Medicine Dealers. Twenty-five cents a bottle.
